Square footage of Estimated Area	

Cost of Framing Estimate from Table	_____
Plumbing Estimate	_____
Electrical Estimate	_____
Custom Hardware	_____
Door & Window Schedules	_____
Payment must accompany Work Order	

These prices are for common residential construction. Unusual and custom residences and commercial construction material lists are higher.
Framing estimate Includes lumber, studs, plate, flooring, rafters, shear and siding, sheathing, common hardware, gypsum board, and insulation. Framing quantities include allowances for waste, etc.
Two complete lists are furnished. One; the builder's copy, is subtotaled by where the material is used: walls, flooring rafters, shear and siding etc. Two: the lumberyard copy, is totaled and sorted by species and size for easy pricing.
Custom Hardware includes tie downs, hangers and other custom hardware called for in the blueprints. Door and window schedules include the size, swing and number of pieces called for with as much information as the blueprints provide.. Electrical and plumbing estimates include rough materials within the building.
All estimates are payable at the time the order is placed. These prices are subject to change without notice.
